Signpost for Jeju Olle Trail

The Jeju Olle trails are easily hiked by following the well-marked signposts. There are Ganse horses, arrows and ribbons to guide you the right way. If you don’t find a signpost or feel like you’ve come a wrong way, go back to the last marker and look carefully to find the right way. Pay attention to the signposts at a forked road. Remember to take your time and enjoy the surrounding scenery and all it has to offer. Jeju’s beauty can be found in both its grand vistas and minute details.

Ganse
Ganse is the name of Jeju’s pony. The word comes from Ganse-dari, meaning slow idler in Jeju. Ganse points toward the direction of the route at a forked road. At points of tourist attractions, you will notice a saddle on Ganse with some description of the site. There is an image of wheelchair and letter ‘S’ on the saddle at a starting point of wheelchair accessible area and an ‘F’ at a finishing point.

Sign-stone for Jeju Olle Trail Starting Point
Sign-stones for the starting and finishing points of each route is made of native basalt. You can find the map and course of each route.

Ribbon
Blue and orange ribbons are tied to trees and post. These are placed on rocky mountain paths, where it is difficult to place an arrow. Ribbons are hung at a height, above the eye level. You can find them easily, even from afar, on a windy day, so look further than closer, when checking the course.

Arrow
Blue arrows on the ground, stonewall and telephone pole is the basic symbol that guides hikers along the Jeju Olle Trails. Orange arrows point in the reverse direction of the trail. This is the post you should follow, when hiking from the finishing point to the starting point. Yellow arrows are for a wheelchair accessible detour.

Wooden Arrow
Blue and orange arrows on a wooden pole provide directions at forked roads.

Plate
16cm in height and width, the plate is attached on a telephone pole or a tree in the forest. It shows the remaining distance and the direction.

Detour and Hazard Signpost
These signposts are placed at dangerous areas or temporary detours. You can check the details of the detour route, including the map, total time and distance. There are 2 orange strips on a detour.

Discover the wonders of Jeju on foot

Jeju Olle Trail is for any walking traveler. We had a firm belief that this beautiful is land of Jeju needed a trail dedicated to those who walk and a trail long enough to cater to those who wish to walk as much as they want. We connected broken trails, found long lost trails and recalled vanished trails to complete Jeju Olle circuit. If traveling by car is like a journey of distanced points, Jeju Olle Trail is an intimate journey that weaves together each point. You will encounter the true Jeju and finer details by hiking the trail, that would otherwise be missed in a car. We invite you to enjoy the Jeju Olle Trail in all seasons and to find peace and love as you slowly drink in the wonder of our island home.

※ You are responsible for your own safety. Please be careful while you are on and off the trail. We encourage you to sign up for travel insurance in advance.
Safety Rules on Jeju Olle Trail

- The trail closes officially at 6 pm in the summer and 5 pm in the winter. Please refrain from hiking after these hours.
- Please refrain from walking in a storm, heavy rain, or snow.
- When you hike alone, let your friends and family know of your whereabouts and safety.
- Please carry emergency contacts with you at all times (Jeju Olle Call Center @ 064-762-2190, Police @ 112).
- Please refrain from visiting steep valleys and cliffs off the trail.
- Remember the remaining distance to the finishing point by checking out the signs (name of the building) and plates.
- If you missed a Jeju Olle sign, go back to the spot where you saw the last one.
- If you are a female hiker travelling alone, stay at women-only accommodation or officially approved accommodation.
- Make sure you are familiar with all Jeju Olle Trail Routes before you start hiking.
- Regularly check official announcements on official website (www.jejuolle.org) of Jeju Olle Trail.

Etiquette on Jeju Olle Trail

1. Greet local residents and other hikers you encounter with a smile.
2. Do not hit nor ride on the Ganse signpost.
3. Do not take the ribbon with you. They are for everyone.
4. Hike on designated routes.
5. If you need to use the restroom, ask the owner politely and make sure to keep it clean.
6. Stay close to the edge of the road on expressways.
7. Close the doors when entering or exiting private farms.
8. Do not harm wild animals.
9. Take trash home.
10. Do not litter on the trail - even tangerine peels.
11. Do not pick or take fruits (including tangerines).
12. Do not pick flowers or branches from the trail.
13. Do not yell on top of an oreum.
14. Hike, relax and enjoy the trail and surrounding nature.

Jeju Olle Trail is for everyone. Please keep in mind etiquette to keep the trail beautiful.
Jeju Olle Passport & Guidebook

It's a must-have item for Olle hikers. You can build up memories while getting the stamps of every route on your Olle passport. Don't miss the special discounts for Olle passport holders.

Trekking Shoes and Sandals

It is always best to bring trekking shoes or hiking boots. If you are familiar with hiking and you only walk about a short course, just comfortable shoes that are not slippery on the floor is okay. If you walk on a seaside routes in the summer, it is good to bring an extra pair of sandals.

Long Sleeves and Long Pants

Be sure to wear long sleeves and long pants even in mid-summer. You can be worn on your arms and legs by trees and grasses in the forest, and burned due to strong sunlight.

Waterproof Jumpers and Raincoats

There are frequent weather changes in Jeju Island. If you have a light waterproof jumper or a raincoat, you can avoid cold winds as well as rain abruptly.

Hats and Gloves

In summer, a wide brim hat is required. In winter, a fur hat is required. Gloves are useful when you walk in a forest or rocky area.

Sunblock and Sunglasses

Sunlight is strong all the year round in Jeju. Sunblock is essential for all seasons, and sunglasses and goggles can be worn to prevent glare.

Water Bottle

In some region especially the forest(Gotjawal) area, you cannot find any stores and houses along the routes. Bring some water and snack too.

Handkerchief and Multi-bandana

It is necessary to wipe away sweat and dust, and to block the wind around the face or neck.

Garbage Bag

You always have to bring your garbage back that you have made instead of littering on the pathway.

Flashlight

We never recommend you to walk Jeju Olle Trail after sunset since there is no streetlight along the routes. However, it’s good to take the flashlight for certain cases.

Cash and Transportation Cards

It’s always good to prepare cash rather than credit card. Some restaurants and stores accept credit card but not many. Prepare little extra money separately in case you should take a taxi and other certain situations. Korean Won is the only acceptable currency in Jeju.

Personal Cups

We highly recommend you to not using disposable products on the trail. Please bring your own reusable cup and water bottle rather than using disposable paper/plastic cup.
**Tips for thru-hikes**

Jeju Island measures barely 250km in girth. But because we follow the arrows and ribbons to explore every corner of the island, the total length of Jeju Olle Trail reaches 425km. Step after step on 26 trails and the trail has more and more thru hikers every day.

*Jeju Olle Passport*
It is just the size of a regular passport. It includes stamping pages for each routes, notepad, traffic information and discount stores.

*Stamp Ganse*
It's located on start, mid, and finish point of each route. Inside of the head of the wooden Stamp Ganse, specially designed stamp and ink pad is there. Every finish point stamp has different design.

*Jeju Olle Stamps*
As you walk, make sure to get stamps at the start, mid, and finish points of each route. Missing up to 3 mid-course stamps of the entire 26 courses are allowed and will still qualify for a certificate of completion.

*Jeju Olle Thru-hike Medal and Certificate of Completion*
After you walk all the routes and take all the stamps, you can get the certificate of completion and the thru-hike medal at the Jeju Olle Tourist Center (address: 22 Joongjeong-ro, Seogwipo-si, Phone Number: 064-762-2167~7) or Ganse Lounge X UYU Cream Crafts (address: 7-5 Gwandeok-ro 8-gil, Jeju-si, Opening Hours: 10 a.m. ~ 6 p.m., Closed on Korean national holiday) You may choose blue or orange for the medal.

Siheung – Gwangchigi Olle

Jeju Olle’s first route connects an oreum to the ocean. The route starts at Siheung Elementary School and connects to an evergreen field, Malmi Oreum and Al Oreum for panoramic scenery of Seongsan Ilchulbong(sunrise peak) and U-do. Green fields with Jeju’s signature black stone wall resemble patchwork of colorful cloths. Walk past Jongdal-ri salt flats and Siheung-ri coastal road and you will arrive at Sumapo Beach with an impressive view of Seongsan Ilchulbong. And the color of the ocean at the finishing point of Gwangchigi Beach is simply stunning.

Attractions

**Malmi Oreum**  Also known as Dusan-bong(peak), Malmi Oreum(small inactive volcano) resembles a horse head. Below the oreum is the vast field of Seongsanpo. You can see Seongsan Ilchul-bong(sunrise peak) in front and U-do(island) on the left.

**Al Oreum**  Al Oreum looks just like a bird egg as its name suggests - ‘Al’ in Korean means an egg. Here, you can see oreums in the East, including Darangshe Oreum, along with Seongsanpo, Seongsan Ilchulbong and Halla-san(mountain).

**Seongsan Ilchulbong**  Is a cliff on three sides and a volcano at the end of the Seongsan peninsula. Its name ‘Seongsan’ comes from its magnificent look resembling a castle, a crater surrounded by 99 rock peaks. It is well known as the place to go for sunrise and is this, often known as sunrise peak to visitors.

**Jongdal-ri Beach**  A small yet pretty beach with lots of seaweed and clams, Jongdal-ri Beach boasts the emerald green sea. Clams from the beach taste good and are often caught by locals. There are shower facilities, so take some time off the course to enjoy the beach during the summer.

**Gwangchigi Beach**  You will find seaweed covered rock fields at low tide and the name Gwangchigi comes from the look resembling wide rocks. Gwangchigi in Jeju dialect means a wide rock(Bille). There is a lot of seaweed, shellfish and fish.

Restaurants for Lunch
There are restaurants around Hagosudong Beach. You can also have fresh seafood in and out of Biyang-do(island). If you started hiking early in the morning, there are number of restaurants to ease your hunger near Geommeolle Beach.
Shaped like a sprawled-out cow, U-do exemplifies the essence of Jeju’s scenery with endless green fields, black stone walls, and lighthouses. The largest of the 62 islets surrounding Jeju Island, U-do offers a trail where you can enjoy the indigo ocean and a magnificent view throughout the year. Past the Hill of Soemultong (puddle for cattle), walk alongside the old stone walls that are still preserved in their original form, and enjoy the rye, barley and peanuts growing on the trail. The newly opened Jeju Olle Trail route has a bypass through the water reservoir, where they convert sea water to fresh water, whereas the earlier U-do bong(peak) trail heads straight up to the observatory. The trail cuts along the wide expanse surrounded by fine field of poppies and crimson c preschools.

Attractions

Hagosudong Beach Beach with Udo-bong(peak) in its background, the clean and white sandy beach is illuminated by numerous fishing boats during the summer dusk.

Hongjodangoe Haebin(white coral) Beach The beach is located in western U-do. Red algae on rocks has created this beautiful and clear-white beach by those white secretions, mingled with exotic seashells. This particular scenery is only found here in South Korea, thus the place was designated as the Natural Monument No. 483 in 2004.

Rye fields U-do has several places for rye cultivation, commonly used as ingredients for whisky or beer. The golden beauty of rye during May makes it seem that the entirety of Udo is swaying.

Crimson clover & great scarlet poppy colony Known to thrive on barren lands, crimson clovers and field poppies paint U-do with shades of red every May through June.

Hill of Soemultong(watering hole for cattle) This is a place where the cows from grazing ranges used to quench their thirst.

Udo-bong(peak) A natural cliff forms neat layers of brick-like stones here, as if they have been laid upon one by another. It is the head of the Udo. The emerald green grass and the indigo blue sea make a perfect color combination, creating scenery that exemplifies the beauty of the island.

Attractions

Siksan-bong(peak)  Ojo-ri Beach was often attacked by Japan back in the Koryo Dynasty. According to legend, the general then gathered everyone from the town to make an oreum look like a huge pile of military rations. Japanese raiders from afar were completely fooled and never tried plotting an attack afterwards. Since then, the oreum was known as Siksan-bong. It is also known as Rock Oreum, as there is a rock at the top that looks like a general.

Daesusan-bong(peak)  The waterway between two oreums in Gosung-ri split both ways. With the waterway in between, the larger oreum is called Keunmul-mwe and the smaller oreum Jakeummul-mwe. Dasesusan-bong(peak) is a Chinese word for Keunmul-mwe, the larger oreum. At the top of Daesusan-bong(peak), you are present with the beautiful scenery of eastern Jeju, from Siheung-ri of Jeju Olle Route #1 to Gwangchigi Beach.

Honinji  It is where Go, Yang and Bu from Samseong Myth, the legendary three founders of Jeju, married the three princesses from Heaven. There is a cave dwelling, which is said to be a home for the newlyweds.

Attractions

Tong Oreum  
The name comes from its look, resembling a sunken water vessel. The oreum turns violet purple in autumn. You can find wild China pink, Meyendorf’s aster and Shiny mint.

Dokja-bong(peak)  
Resembling a horseshoe, Dokja-bong has a crater facing the exact opposite direction of Tong Oreum – making the two seem as if they are turning their backs on each other. There’s a saying that most people around this landmark have only sons due to this oreum.

Sinpung Sincheon Bada Mokjang(livestock farm)  
A marine ranch on the coast of Sinpung-ri and Sincheon-ri. Jeju’s traditional Eomeong-Abang Festival opens every year in Sinpung-ri.

Attractions

Pyoseon Danke-pogu(port)  According to the myth, surroundings of Danke-pogu(port) were devastated whenever it was hit by typhoon. People got together to wish for the well-being of the village to Seolmundae Halmang, the creator goddess of Jeju, and she built the port for them. There is a shrine dedicated to Seolmundae Halmang near the port at the end of the beach.

Ganeungae  The name comes from its look – the narrow point of the ocean joining a stream. There is a forest of scrub these days.

Mang Oreum  There was a bongsoodae(signal-fire tower) used during the Joseon dynasty, communicating with Jabe-bongsoo in the West and Dalsan-bongsoo in the East. You can still find ruins of bongsoodae at the peak.

Geoseun-saemi  Most springs flow from top to bottom, from the mountain to the ocean. Geoseun-saemi is different. It flows upward from the ocean. There is a myth. With prophecy of a competing power to be born on Jeju, a royal family in China dispatched General Hojongdan to cut off the energy flowing from the mountain and the water (following the principles of fengshui). Luckily, Geoseun-saemi and Nodansaeami were not affected then and are still flowing upward to these days.

Route #05
Namwon – Soesokkak Olle

This route begins at Namwon-pogu(port), where you can see Ilchul-bong afar, and goes on to one of the most beautiful coastal trails, Keung-ung(hill) Scenic Resort Walk, and Soesokkak, where fresh water and sea water come together. These are coastal Olle and village Olles. The scenery of camellia fences around the village make for a relaxing and cozy atmosphere. We have restored 3 points of the coastal Olle trail, with support from Namwon-eup and the 93rd battalion of the Marine Corps. It is particularly pleasant to hike through a forest of subtropical plants to get to the ocean.

Attractions

**Keun-ung(hill) Walkway**  
A walkway near the coast of Namwon. Ung is Jeju dialect for the shade formed by a rock on the coast or cliff. It is known as one of the most beautiful coastal walkway, along with Dombenang-gil near Oedolgae. 50~65 feet high cliffs resemble a fortress and Keun-ung(hill) is located at the center of the walkway. The ocean is clear and blue, akin to the Mediterranean. There is a habitat of windswept Umusasurepi and Australian Laurel.

**Jobae Meodeul Koji**  
It is cape at Wimi-hang(port). There are eye-catching stones, but not as many as there used to be long ago. According to a myth, a Japanese fengshui scholar during the Japanese occupation period feared the birth of a powerful figure in the village. So he told one of the local influentials(Kim) that the stones symbolize bad luck for the family, as they resemble guns aimed at their house. Kim got scared and destroyed the stones to protect his family. It is said a snake bled to death at that time.

**Soesokkak**  
It is a landmark with outstanding scenery of fresh water and seawater coming together. Soe means a cow, So means a puddle and Kkak means the end. It was first called Soedoon for it looked like a lying cow. Here you can rent kayaks or ride a traditional Jeju raft (Tae Woo). You pull the rope attached to Tae Woo to travel from one point to the other. The Tae Woo tour takes 40~50 minutes up and down the valley and costs KRW 7,000. It’s run by the local young men's group.

Route #06
Soesokkak – Seogwipo Olle

This route is a favorite of many visitors and locals alike. Starting from the serene Soesokkak Bridge, you will continue along a stretch of beautiful coastal road and pass through the seaside town of Bomok. From the coast, you can spot Seogwipo in the distance as well as islands such as Seop-seom(island). In Seogwipo, you can encounter an abundance of cultural and natural heritage including both Cheonjiyeon and Jeongbang waterfall. You can also learn about the legend of Jeju’s discovery at the Seobok exhibition hall. Shortly after, you will come upon Lee Jung Seob Street, named after the famous Korean artist whose dwelling has been preserved and its surroundings made into a park. This street is also home to many present-day art vendors, an old theater, and chic cafes. Further up you can immerse yourself in the hustle and bustle of the Olle Market where locals sell their crops, daily catches, and delicious street food.

Attractions

Sogeummak  People used to boil sea water or use the blazing sun to produce and store salt, when salt was too scarce. There used to be barracks for Sogeummak guards here.

Lee, Jung-seop Art Gallery  There is an art gallery next to the Lee, Jung-seop Residence. Not too many of his works are on display, but there are love letters he exchanged with his life. You can listen to the song ‘Seogwipo Chilsimni’ in the lawn.

Route #07
Seogwipo – Wolpyeong Olle

Route #7 is a coastal Olle from Jeju Olle Tourist Center that passes through Beophwan-pogu(port) and finishes at Wolpyeong-pogu(port). Near the start of this trail is the breathtaking rock spire of Oedolgae and its surrounding cliffs. In February 2009, Poonglim Olle-gyo(bridge) was built to replace Soobong-gyo(bridge) that had been destroyed by typhoons and strong waves. In Beophwan you can catch sight of many Haenyo women divers off the coast as well as a spectacular view of Beom-seom(island).

Attractions

**Oedolgae**  
A lonely rock spire in the middle of the ocean. It is said that the rock was formed 1.5 million years ago, after a volcanic eruption. Aquamarine ocean, pine forest, and tremendous cliffs nearby will leave you speechless.

**Dombenang-gil(road)**  
This is where you can see rock cliffs and evergreens, Mun-seom(island) and Sae-seom(island) in the East and Beom-seom(island) in the West. Dombe means a cutting board in Jeju dialect and Nang tree.

**Ilganjeong Badang Olle**  
Dumeomimul-Seogeon-do(island) section was not accessible at route exploration, but it was completed in February 2009. It is an impressive road, completed after picking up stones off the road one by one. The leftover stones were piled into large bangsatap towers. These distinctly Jeju constructions are believed to bring good energy (feng shui) to an area. Long ago, Gangjeong had some of the best water, soil, rice and other grains. Rice was always particularly hard to grow on Jeju, thus the area was named Ilganjeong. It was seen as the most fertile and prosperous area on Jeju. The road was name Ilgangjeong Badang Olle, perfectly fitting Gangjeong long held reputation.

**Seogeon-do(island)**  
It was called Budo on the old map of the Tamna Kingdom, made in 1709. The current name Seogeon-do(island) literally means rotten island. This is due to its poor quality soil. However, Seogeon-do itself is quite wild and beautiful. Dolphins can often be spotted from its shores. Twice a day the tides are low enough to create a land bridge connecting the island.
Jeju Olle Route

07-1 Jeju World Cup Stadium - Seogwipo Olle

Total Distance: 15km
Total Time: 4~5 hours
Difficulty: Medium

The path includes Gogeun-san (mountain), a hill relatively steeper compared to other oreums.

Wheelchair Accessible Area: ☐ Yes ☑ No

Starting Point: Jeju World Cup Stadium Plaza

Finishing Point: Jeju Olle Tourist Center

Stamp Station
Jeju World Cup Stadium Plaza / Jenam Child Welfare Center in Seoho-dong / Jeju Olle Tourist Center

Restaurants for Lunch
Once you are past the restaurants around World Cup Stadium, there is no place to go for lunch until Hogeun Village. There are few restaurants in Hogeun Village, but they open and close irregularly. We recommend you to have enough breakfast before setting out. You can still have lunch near Togeychon, 2.4km before the finishing point.
This Jungsangan (mid-mountain trail) provides a change of scenery from the coastal Olles. The trail begins at Jeju World Cup Stadium and ends at the Jeju Olle Tourist Center through the mid mountain region. You will find Halla-san(mountain) rising majestically over Jeju’s southern sea and the entirety of Seogwipo below. The scenery of the untraveled regions of Jungsangan surrounded by cliffs and natural warm-temperate forest are striking. You can also pass by rice fields within a large crater, quite rare in Jeju. It is a lot of fun to hike along the ridge between rice fields.

Route #08
Wolpyeong – Daepyeong Olle

A Badang Olle (seaside walk) route. You will have the opportunity to hike past Jusangjeolli, where lava from the ocean cooled down to form striking hexagonal columns of basalt, and the serene Yulli Coastal Road of flame grass. Near the trails end, you will find Daepyeon-ri. This is a small village that feels in harmony with the surrounding nature. Referring to the large field from the ocean at the ridge of Andeok Valley, the village is also called Nandeureu. Scenery of the village from Gunsan, the mountain overlooking the village, is gorgeous.

Attractions

Daepo-pogu(port)  Meaning great port, this peaceful seaside town between Seogwipo and Jungmun is a great place to watch fishing boats come and go while enjoying their fresh catch of the day.

Jusangjeolli (columnar joint)  A geological wonder, when black basalt lava meets the ocean and cools down quickly, it forms a series of amazing hexagonal columns. The cliffs of Jusangjeolli are the best example of this phenomenon on the island.

Berinnae  Looks just like milky way in the deep valleys of Cheonjeyeon. What used to be called a star falling stream(where stars shine) is now known as Berinnae.

Nonjitmul  Cold spring water flows into the ocean here and provides a great summer swimming hole for the whole family to enjoy. Long ago the water was used to grow rice in nearby fields.

Daepyeong-pogu(port)  Meaning large field, Daepyeong-ri is a small and peaceful village – also known as Nandeureu. Haenyeo performances take place in the village. The steep cliffs of Baksugijeong provide a stunning backdrop.

Daepyeong – Hwasun Olle

We start off at the small and friendly village of Daepyeong-pogu(port) following an old Moljil (horse path) and encounter Baksu-gijeong – a vast meadow on top of a cliff. In the old days, Jeju’s finest quality ponies were raised at Baksujeong, shipped to Daepyeong-pogu(port) by miljill and sent to the Yuan Dynasty. It is amazing to imagine these humble horses being used by Mongolian riders in their infamous conquests. Baksujeong connects to Bollenang-gil(pathway) with lots of linden trees. Wolla-bong’s uphill road is challenging, but the beautiful scenery on the way is worthwhile. Near the summit, there is a network of Japanese tunnels that were created during their militarized occupation in the 1930s and 40s. Lastly, Andeok Valley allows you to get a glimpse of an untouched Jeju, maintaining the look of primitive times. It is one the most beautiful valleys in Jeju Island.

**Attractions**

- **Baksugijeong** Steep cliffs next to Daepyeong-pogu(port). Gijeong is a Jeju dialect for a cliff. Baksu means drinking spring water from the bedrock with a large bowl. The spring water is well known to be good for skincare. Many come to this spot on the Buddhist All Souls’Day(the 15th day of the 7th lunar month).

- **Moljil(horse path)** Long ago a road for horses. It is said that Moljil(horse path) was built to send horses, raised in the Jungsangan area of Western Jeju, from Daepyeong-pogu(port) to the Mongolian Yuan Dynasty.

- **Bollenang-gil(pathway)** Past Moljil(horse path) and Gijeongril(pathway) is a walkway filled with Bollenang (Linden Trees).

- **Bongsoodae(Fire Signal Tower)** It is a communication mechanism, used back in the Joseon Dynasty to watch for enemies and signal in the event of danger. This Bongsoodae(signal fire tower) communicated with Sanbang Yeondae below Sanbang-san(the large mountain visible west of here).

- **Andeok Valley** This valley boasts a deep and dense scenery. The primitive forest around the valley is a natural heritage site. It’s also known as Ollengyiso, as it welcomes lots of wild ducks. Ollengyi means duck in Jeju dialect. Korean scholars, such as Junghhee Kim and On Jung, were exiled to Andeok Valley. They raised disciples, while enjoying the serenity of the valley.

Route #10
Hwasun – Moseulpo Olle

This coastal Olle route begins at the Hwasun Golden Sand Seaside and ends at Hamo-ri in Daejeong-eup. The route passes by Sanbang-san(mountain) and Songak-san(mountain). Sanbangsan is home to a beautiful mountain side Buddhist temple overlooking the tranquil sea. Below the mountain is Yongmeori, also known as Dragon’s Head Coast. These stunning contoured tuff ring cliffs glitter on a sunny day. This is also the site where the Hendrick Hamel and his crew shipwrecked and provided some of the first European accounts of The Kingdom of Korea. In the distance, you can see the small island communities of Mara-do and Gapa-do. As you pass the coastal town of Sagye, be sure to turn around to catch a spectacular view of Halla and Sanbang Mountains behind you. Further along the trail is the fascinating remnant of a Japanese airfield from WWII. You can still spot the hangers that housed the infamous Zero fighter planes amid radish and potato fields.

Attractions

Hwasun Golden Sand Beach  A small, yet beautiful beach. The sand is soft and the water is not too deep so it is good to play here with children. You can see Hyeongjeseom(brothers island) in the ocean and Sanbang-san(mountain) on the land. You can also use the spring fed outdoor swimming pool for free.

Sanbang Yeondae(smoke signal tower)  Built during the Joseon Dynasty for defensive purposes. The smoke signal tower communicated with others, including the tower found on Olle 9. A trench was dug around the Yeondae and a temporary building to keep armaments and daily necessities was built.

Songak-san(mountain) / Jeolwoolyi Oreum  There are small and big craters on Songak-san(mountain). The 260 feet deep crater at the highest peak is still covered with dark red ashes. Jeolwoolyi means screaming wave. Once you are on Songak-san(mountain), you can see Sanbang-san(mountain) and Hallasan(mountain) to the North and Gapa-do(island), Mara-do(island) and Hyeongjeseom(island) to the South. There are Jinji Caves along the coastal cliffs, created by Japanese at the end of World War II. These caves are a good reminder of the oppression Koreans faced in their struggle for independence.

Hamo Beach  Also known as Melke Beach, where lots of Mels(anchovies) were caught in the past. The sand is soft and the water level is shallow. It is where Hamel, the Dutch seafarer, was believed to have shipwrecked during the Joseon Dynasty.

Route #10-1
Gapa-do(island) Olle

Gapa-do(island) is an inhabited island in Korea known to have the lowest elevation. The highest point of this island is only 20.5 meters above sea level. In contrast, highest mountain in South Korea, Halla-san(mountain), dwarfs the tiny island just off the coast. An average walker may stroll around the island in an hour. In April and May, you can walk among the barley which grows in large golden swaths across the island. There is also a popular yearly barley festival held here at that time of the year.

Route #11
Moseulpo – Mureung Olle

Life, death, and hidden wonders coexist on Route #11. The trail begins at Moseulpo-hang (harbor) (Hamo Sports Park). Moseul-bong (peak), the climax of this route, has the largest cemetery of the area. The graves in the traditional Korean style are both haunting and a beautiful reminder of the life we have left to live. Jeju Olle restored ‘The Long-Lost Road’ to the peak with support from the forest firewatchers. On top of Moseul-bong (peak), you can see the oreums and sea of Southwest Jeju. The Gotjawal Olle located between Sinpyeong and Mureung is an impressive ‘Hidden Jeju Forest’ that was first introduced to the public by Jeju Olle. Gotjawal are uniquely native forests on Jeju that rest upon a volcanic bedrock that also serves as an aquifer. They are home to many endangered and protected flora and fauna.

Attractions

Moseul-bong (peak)  A towering oreum in the middle of the Moseulpo plains in Daejeong-eup. Its name comes from its location in Moseulgae (Moseulpo). There is a bongsoodaee (fire signal tower) from The Joseon Dynasty at the top. Moseul is from the Jeju dialect Mosal, meaning sand.

Sinpyeong-Mureung Gotjawal  A special kind of forest unique to Jeju. Gotjawals are well known for their biodiversity, containing both subtropical and temperate flora. Its color stays green throughout the winter and functions as the lungs of our ecosystem. The volcanic bedrock below these forests also serve as an aquifer to filter rainfall and provide fresh water to islanders. Sinpyeong-Mureung Gotjawal was first introduced to the public by Jeju Olle.

Route #12
Mureung – Yongsu Olle

On the far western side of the Island, route #12 is from Mureung 2-ri to the Jeolbuam in Yongsu-pogu(port), beautiful sceneries of fields, ocean and oreums(small extinct volcanoes) continue throughout the trail. The horizon is hazy in the wide-open fields, and the deep-sea sways in a glitter of turquoise and jade. The Doguri (a wide container made by sculpting stone or wood to be use as a feed bucket for cows or pigs) forms a mystic pond filled with sea water and seaweed. The view of the tidal waves pounding at these Doguri is magnificent. The stone workers that created the ‘Ilgangeung Badang Olle (seaside walk) Trail’ on route 7 reconstructed this path in front of Sindo beach with the help of Seogwipo City. Further along you will pass through the UNESCO natural heritage site of Suweol-bong(peak) This volcanic tuff ring is prized for the richness of its geological history. Further along you all climb over Dangsan-bong, all the time having a great view of Chagwi-do(island) just off the coast. Shortly after you will come upon ‘Saengyi Gijeong coastal road (meaning ‘cliff with many birds’). Here you will encounter countless seagulls and other coastal birds.

Attractions

Suweol-bong(peak)  This parasitic volcanic cone, though only 77 meters above the sea level, boasts a superb view of southwestern Jeju Island; facing the sea to the north is the Chagwi group of Chagwi-do(island), Juk-do and Noon-seom(island) with Dangsan-bong(peak) rising immediately above the port. The seaward cliff below Suweol-bong is called “Eongal”.

Dangsan-bong(peak)  Rising immediately above the port. The seaward cliff below Suweol-bong is called “Eongal”. Dangsan-bong’s original name is Dang(Shrine) Oreum. There used to be a shrine at the foot of the mountain, called Sagwi. Some mistakenly called the shrine Chagwim thus some people also know this peak as Chagwi Oreum.

Chagwi-do(island)  This is the largest uninhabited island in Jeju Province. The island is a 10-minute boat ride from Jagunae-pogu(port). Chagwi-do(island) is comprised of Juk-do(island), Jisili-seom(island), Wa-do(island) and some smaller islets. Chagwi-do(island) is well known for a type of squid locally harvested and dried by sun and wind. These squid can often be seen while walking along the coastal Olles!

Yongsu – Jeoji Olle

The Jeju Olle Trail that lines the coast finally makes a turn inland. This lush woodland trail provides a very different view of Jeju. You will only see the sea at the starting point in Yongsu-pogu(port), and the path will continue through the forests of the mid mountain region. The path passes through Yongsu Jeosuji(reservoir) before meeting a small village called Nakcheon-ri, then continues its journey through more forests and oreums(small extinct volcanoes). The reservoir is very popular amongst bird watchers due to the variety of birds found there. 3km of the trail was restored with the help of the 13th Special Airforce Brigade. The trail is comprised of 7 different forest trails, farmlands, pine paths and Jeoji Oreum.

Attractions

**Special Forces Forest Trail**

This trail was restored with support from the 13th Special Air Forces Brigade stationed in Jeju-do. 50 members of the Special Forces restored and maintained 3 kilometers of 7 forest paths that had previously vanished. It is interesting to hike a path that once disappeared due to not having many visitors, catching the specks of sunlight that shine through the dense leaves of the forest. Finding the two rest areas built by the members of the Special Forces is another incentive to look forward to on this route.

**Nakcheon-ri Ahop-gut(nine rituals) Maeul(village)**

Nakcheon-ri in Hangyeong-myeon, Jeju-si, was the place where smithy started 350 years ago in Jeju-do(island). It is said that nine holes were dug in the ground to prepare clay for smithy and these holes were later filled with water, forming a spring. Resembling installation art, an array of 1,000 beautiful chairs at the Ahop-gut Maeul Experience Yard is a unique attraction of Nakcheon-ri. The village people all gathered to cut and trim the trees to create 1,000 different chairs, ranging from a three-story high giant chair to a small wooden stool. The chairs displayed throughout the village provide great opportunities for rest and relaxation during your hike.

**Jeoji Oreum**

 Ranked as one of the most beautiful forests in Jeju, it used to be called Dakmol Oreum(small inactive volcano) for its dense forest of Dak Namu(Mulberry). Jeoji is the Chinese character for Dak Namu. With a height of 390 meters and circumference of 1,540 meters, Jeju Olle Trail Route #13 allows you to walk both the perimeter and to the peak of the Oreum.

Route #14
Jeoji – Hallim Olle

The vibrant green forest trail meets the cool and lively expanse of the blue ocean. Once you go past the open fields of Jeju’s farm villages, dense forests of Jeju’s wild Gotjawal(dense forest) envelop you. Onward you will follow the dry riverbeds to arrive at the coast. You certainly cannot get bored while walking the dynamic 19.2 kilometers riddled with rustic stone walls, villages, farmlands, forests, rivers, large groves of cacti, and fine sandy beaches. The view of Biyang-do(island) is visible throughout the entire walk along the water. The small oreum island sits just off the coast and is home to a very small community. Along the way, you will also pass through the beautiful Hyeopjae beach, with its emerald green waters and trendy beach town atmosphere. The exploration team put in an extra effort to find trails and create a pathway where it seemed to be impossible. The fruit of their hard work is evident as you traverse route #14.

Attractions

Keunsonang Forest Path  A forest path with large pine trees. The Name (literally translated to large pine tree) was given by Jeju Olle Foundation. ‘Nang’ means tree in Jeju dialect.

Guleongjin Forest Path  A hollow, sunken terrain is called ‘Guleongjida’ in Jeju. Newly developed by Jeju Olle Foundation, the path was named Guleongjin Forest Path for its many curves throughout the route.

Geumneung/Hyeopjae Beach  These beaches have the most beautiful colors of the ocean. Geumneung Beach and Hyeopjae Beach are adjacent to each other. Both beaches glow silver with many seashells in the sand. The color of the ocean is a stunning mix of turquoise and aquamarine. They are rather shallow beaches with low sloping shorelines, good for playing in water with children. It was appointed an outstanding beach in 2007 by the Ministry of Maritime Affairs and Fisheries.

Biyang-do(island)  Keep Biyang-do(island) in your sight as you hike from the mid-point of Route #14. Wollyeong Coast, Hallim-hang(harbor). It is entertaining to see different sides of the island by hiking the trail. Biyang-do is a volcanic island created from an eruption over one thousand years ago, in 1002. It is one of the youngest volcanic islands in Jeju. The region is famous for coral reefs formed by the abundant marine organisms and clear seawater. The inner crater of the Biyang-bong(peak) is the only place in Korea, where you can find wild Biyang Namu(Oreocnide fruticos), a tree named after the island and listed as a natural heritage by the Jeju Self Governing Province.
Jeju Olle Route

14-1 Jeoji - Mureung Olle

Total Distance: 9.2km  
Total Time: 3~4 hours  
Difficulty: Easy

Pay close attention to the signs on the trail, because getting lost in a Gotjawal (dense forest) can be dangerous. Since there are no houses on the trail, it is best to travel in groups. There are neither restaurants nor shops on the trail. You must prepare your lunch, water and snacks before getting on the trail. (*) There might be a breakdown in communications in select areas. Gotjawal, forest areas in this route are not appropriate for walking alone, particularly for women. Finding companions or joining a daily Guided Walk is recommended way. You can check the Guided Walk schedule on Jeju Olle’s official website.

Wheelchair Accessible Area: □ Yes  ☑ No

Finishing Point: O’Sulloc Green Tea Fields

Stamp Station
Jeoji Arts Information Network Village / Exit from Mundoji Oreum / O’Sulloc Green Tea Fields

Restaurants for Lunch
Pack something to eat and drink beforehand, as there is no restaurant or store other than the Innisfree Jeju House on the finishing point of the route.
Route #14-1
Jeoji – Mureung Olle

This path running from Jeoji to green tea fields in Seogwang-ri allows the hiker to feel the vibrant green energy of untouched forests. The path from Jeoji village continues through farm fields until it reaches dense forests. When you reach the peak of the Mundoji Oreum (small extinct volcano), where there are horses grazing on grass, you get a great view of Halla-san (mountain) and several oreums around the area. From this view the wild and primal Gotjawal (dense forest) seems like a well-trimmed garden spread beneath your feet. Always stay keen on the route, as you can get lost easily in the Gotjawal. But still remember to relax as the energy of the thick forest bathes you in its lush green vibrancy. The pathway out of the Gotjawal leads you to the vast green tea fields of O’Sulloc, the finishing point of the route #14-1.

15 Hallim - Gonae Olle

Total Distance: A 16.5Km / B 13.6Km
Total Time: A 5~6Hours / B 4~5Hours
Difficulty: A Medium / B Easy

It is a relatively long trail. Although it is not steep, you will pass over some oreums (small extinct volcanoes) and forest paths on course A. There are no hill climbs on course B.

Wheelchair Accessible Area: ☑ Yes ☐ No

Starting Point: Ferry Waiting Room at Hallim-hang (harbor)

Finishing Point: Gonae-pogu (port)

Stamp Station
Ferry Waiting Room at Hallim-hang (harbor) / (A) Rest Room in front of Napeup Elementary School, (B) Gazebo at Geummseongcheon (stream) / Gonae-pogu (port)

Restaurants for Lunch
On the course A, there are pork and beef restaurants around Napeup Elementary School and Napeup-ri office. There is no restaurant past this point until Gonae-pogu (port). There are enough drink and food along the course B.
Route #15
Hallim – Gonae Olle

Jeju Olle Trail route 15 begins at the sea in Hallim and passes through inland villages, farmlands and oreums (small extinct volcanoes) on the land before returning to the sea in Gonae. Glorious scenery unfolds at the Hallim-hang (harbor), with seagulls and wild geese spread out on the sea. The wooden statues carved into the shape of seagulls, and the flocks of seagulls lingering around the posts create a strangely pleasant living sculpture. If you take A course, the trail fades away from the water as soon as you pass Hansu-ri. This marks the beginning of the Maeul (village) Olle. A village untouched by development appears, followed by evergreen fields with small ponds, two oreums and a hidden warm-temperate forest. The scenery only gets better as you progress through the trail. The blue sea sparsely appears past the fields and oreums. The pathway connected to the sea unfolds upon your arrival at Gonae-pogu (port). This marks the end of route 15. The B course is recommendable for those who prefer seaside walk in particular with children who have started school and above. You are never far from facilities like a coffee shop or small restaurant (toilets). The main circular highway is a short walk. So if the kids get tired you can go catch a bus or taxi. Gwakji Beach near the midpoint stamp box is a good place to take a break with the kids and play on the beach. Straight after Gwakji is the scenic walk along the sea front known as Handam. The red sunset seen behind the trees is a gift for those who have endured the long journey.

Attractions

Yeongsasaengmul

It is a pond on bedrock, around 1m in depth. A house was built with the clay dug up from this spot, and a pond formed subsequently. Popular among the local residents to watch swallows play by the pond. The place has different names, such as Yeomsaeseomul, Yeongsosaengyimul, Yeongsasaengmul, Yeongsaseongmul.

Geumsan Park

Next to Napeup Elementary School, here you can find a forest of the warm temperate wild plants. Silver Magnolia, Japanese Cinnamon, Aucuba, Blue Japanese Oak, Japanese Coral Tree, and Camellias form an evergreen forest even during the winter. It is a rarely occurring forest and is designated as the 375th Natural Heritage Site because of its scientific and scholastic value. It is a place where the aristocrats of the island wrote poems or exchanged friendly conversations. It is an ideal place for weary souls to cool down under the trees in summers, and stay warm in winters.

Haga-ri stone walls and Yeonhwa-mot

Haga-ri is a village located to the right of the main roads down Gonae-bong (peak). It is not part of the trail, but, if you have time, we recommend you to pay a visit. All houses in the village were restored by replacing their fences with traditional stone walls. Yeonhwa-mot (lotus blossom pond), the largest pond in Jeju, is located at the center of the village. The width of the pond is 12,200 square meters and is filled with lotus blossoms in summer.

Gonae-bong (peak)

An oreum (small inactive volcano) located to the southeast of Gonae-ri. It isn’t too tall, but it still blocks the sight of Halla-san from the village. The village became one of the few spots in Jeju where Halla-san (mountain) is not visible. It takes about 20 minutes to the top by foot. There are exercise stations installed near the top and what makes it even better is the magnificent unobstructed view of Halla-san (mountain). This has led some to call the Oreum “the gym with the best view on Jeju”. It has also been called Goni Oreum or Gono Oreum.

16
Gonae - Gwangnyeong Olle

Total Distance: 15.7km
Total Time: 5~6 hours
Difficulty: Medium

Although the route doesn’t include exceptionally difficult paths, it is lengthy (15.7km) with uphill climbs throughout the trail. It is difficult to go on the entire length of the trail on a wheelchair or a stroller due to the stairways that appear after the Sineom-pogu(port) and some dense forest areas.

Restaurants for Lunch
There is no restaurant or store between Gueom-pogu(port) and Hangpaduri Hangmong Historical Site, so fill up before setting out on the route. Seasonal dishes are served at some restaurants near Susan Reservoir in summer. We recommend you to prepare a lunch box, as there is only a small store at Hangpaduri Hangmong Historical Site and no restaurant until Gwangnyeong 1-ri.
Route #16
Gonae – Gwangnyeong Olle

The emerald sea from Gonae-ri to Gueom-ri, the Sogeum Ville (salt field) where salt crystals shine in the sunlight, the peaceful reservoir where fisherman cast their time away, a quiet forest surrounded by shadows casted from tall trees, an old castle that served as a battlefield for the Sambyeolcho army, the small and peaceful villages stone walls surrounding the open farmlands… These are to be found along the sixteenth route of Jeju Olle Trail, from Gonae to Gwangnyeong.

Attractions

Namdu Yeondae(Smoke Signal Tower)  
Yeondae is similar to bongsoodae(Fire Signal Tower), which both serve as a communication network in case of an invasion or an emergency. Unlike bongsoodae, which is located at the peak of an oreum, a Yeondae is located on the hill of the coastal region. There were 38 Yeondae in Jeju that communicated by smoke during the day and light during the night. On cloudy or rainy days, the soldier sometimes delivered the message on foot. Namdu Yeondae is part of Aewoljin, which communicated with the Jobu Yeondae to the east and Aewol Yeondae to the west. The post was guarded by 6 officers and 12 soldiers. It is built on the coastal cliff at a height of 3.9m. It is registered as #23-7 of Natural Heritage by The Jeju Special Self-Governing Province.

Susan-bong(peak)  
Also known as Mulmae Oreum(small inactive volcano). It is a relatively low oreum, with a height of 122 meters. It was also called Yeong-bong(peak), because the oreum was known to be beautiful and benevolent. When drought struck Jeju, rain-calling ceremonies were performed here by a priest. There is an army cemetery to the west of Susan-bong along with a Buddhist temple to commemorate the souls resting in the graveyard.

Jeju Hangpaduri Hangmong Historical Site  
The last bastion of Korea Dynasty’s Sambyeolcho soldiers at the end of the 13th century(1271~1273). Following the lead of General KimTong-jeong ,The Sambyeolcho Army came to Jeju after the island of Jindo fell in 1271 and General Bae, Jung-son passed away. The Sambyeolcho built a castle to defend their land. However they were was annihilated when the castle was destroyed during a siege by Yeomong allies in 1273. Hanpadu-seong(castle) is the last remaining castle in Jeju, built within 15-ri(about 7.5 Km) along the surrounding hills and rivers. It is a large castle and efforts have been made to restore its original since 1978.

Route #17
Gwangnyeong – Old Downtown of Jeju-si Olle

Leaving Gwangnyeong-ri and strolling along Musu-cheon(stream), you will see Woldae (scenic view point) in Oedo where it is said that worries disappear and the Aljakji(pebbles) coast in Naedo. Legend has it that scholars enjoyed the arts here under the moonlight in the old times. The scenery is very quiet and peaceful, making it hard to believe that this is a place not far from the downtown of Jeju-si. The seaside pathway that extends from Oedo begins with a spattering of pebbles. If you pass the green barley pathway while walking along Iho Tewoo Beach (named after Jeju’s traditional raft), you will be at Dodu-bong(peak) before you know it. This point is commonly called the head of Jeju. Although Dodu-bong is not quite high, the view from the top of it is stunning. Yongduam (Dragon head rock) and the Yongyeon-dari(bridge) are also nice attractions along this path. There is quite a bit of history along the path as you ebb and flow between ancient and modern Jeju City. After passing Mugeun-seong(castle) and the Mokgwanaji (Former Jeju Government Office Site), you will be transported in time to find the Ohyeondan(altar) where the ancestral tablets of five saints are enshrined. You will also encounter the ruins of Jeju castle surrounding Ohyeon. Before you know it, you will be amidst the present-day hustle and bustle of Dongmun Market, the largest traditional market in Jeju. The long journey finally comes to an end when you reach the foot of Sanji-cheon(stream) restored to its natural form. There is a total of 8 bridges to cross and five or six open-air baths, including the Oraemul in Dodu. Overall, route #17 is a wonderful opportunity to witness a fusion of modern Jeju living mixed with ancient traditions.

Attractions

Woldae in Oedo  Located downstream of Dogeun-cheon(stream). This has been a place since the old times where people came to see the moon brightly reflected upon the tranquil waters. Several hundred-year old nettle trees and pine trees add to the quaint beauty. The area is also well-known for its freshwater fishing along, Dogeun-cheon(stream).

Iho Tewoo Beach  This is the beach is closest to downtown Jeju. The beach is covered with blackish sands and pebbles and a fine forest stands behind the beach. Although the area is not huge, many people visit here because of its convenient transportation and the night view of downtown Jeju. The Iho Tewoo(Jeju’s traditional raft) Festival is held here every summer.

Dodu-bong(peak)  An Oreum(small inactive volcano) with a height of 65.3m and a circumference of 1,092m. This is the Oreum that represents Dodu Village. The sunset viewed from the top of the Oreum is impressive. It was called Dodori-san(mountain), Dodori-ak(peak) or Dowon-bong(peak) until the village name was settled as Dodu-ri. On the top of the craterless oreum you can find the remains of the Dowon Fire Signal Site used throughout the years of Joseon Dynasty.

Yongduam  It’s also known as Dragon’s Head Rock. The rock is shaped like a dragon’s lifted head. The formation is believed to have been made when lava gushed up from the shore. There are many stories and legends about the rock. One of them says that a messenger of The Dragon King came to Hallasan(mountain) to find an herb for eternal life, but ended up being hit by an arrow shot by the mountain spirit. The messenger’s body sunk in the ocean and only the head was hardened to form a rock above the water. The site is #57Natural Heritage of The Jeju Special Self-Governing Province.

Route #18
Old Downtown of Jeju-si – Jocheon Olle

Begin your journey from city to city. Route #18 begins at the Jeju Olle Ganse Lounge which is located in the center of downtown, Jeju-si. Take a walk along the small plaza of Sanji-cheon(stream) adjacent to Dongmun Rotary. The route is connected to a well maintained man-made trail. Water birds can sometimes be seen flying around the area. Passing Jeju-hang(harbor) offers a view of the sea and both Sara-bong(peak) and Byeoldo-bong. The two peaks offer a natural haven for those looking to escape the city bustle. Despite Sara-bong’s high altitude, climbing the hill is not difficult. It provides picturesque sights of downtown Jeju-si, the sea and Halla-san(mountain). The route going down from Sara-bong is truly magnificent as it provides a harmonious view between silver grass and the sea. The trail is followed by a vacant area where only stone fences can be seen. This used to be where Goneul-dong village was located before it was completely burnt down during the April 3 massacre. Following the aftermath of the Korean War, many islanders were killed for their supposed communist ties. There are still remnants of some houses which serve as a painful reminder of those who lost their lives in this senseless tragedy. The route extends to Wondang-bong, where the countryside is more prominent and Wondang-sa(temple) stands. Long ago, this path was used by people going to Sinchon for food after participating in rituals. Breathtaking coastal scenery follows from Shibicoji to Dakmoru. You will further come across the beautiful ports of Shinchon and Daeoseom. This spectacular journey ends after passing by Yeonbukjeong and reaching Jocheon Manse Dongsan(mound).

Jeju Olle Route

18-1 Chuja-do (island) Olle

Total Distance: 18.2km
Total Time: 6~8 hours
Difficulty: High

The route goes up and down many of the beautiful peaks of Chuja. The frequent uphill and downhill climbs can be a bit tiring for some, but exhilarating for others. Due to the ferry schedule, it is nearly impossible to finish the route in one day. Therefore, we recommend staying overnight. The sunset viewed from Bongle-san (mountain) is stunning. Keep in mind that the ferry to Chuja can be canceled due to bad weather. Check with the ferry companies before going!

**Route #18-1**

**Chuja-do(island) Olle**

Chuja-do is not just one island, but an isolated archipelago roughly halfway between Jeju and the mainland. There are 4 inhabited and 38 uninhabited islands in the Chuja Islands territory. The Olle traverses the two primary islands of upper and lower Chuja. Both islands are home to a handful of sleepy fishing villages that provide a great opportunity to witness a simple life living off the land and sea. The close-knit nature of the villages also gives a rich sense of community where everyone lives and works in harmony. Yet, outside of the villages, it is easy to forget the island is inhabited. The landscape is brilliant and untamed. In spring, countless wildflowers bloom amidst the forest and the coastline. One gets the sense of exploring a mysterious mountainous island as you rise and fall with the undulating peaks and valleys of Chuja. With each climb, new vistas unfold, an interwoven tapestry of endless sea and bizarre rocks. On a clear day, you can even see Halla-san(mountain) looming in the distance like a lonely giant. The trail itself is a figure 8, so you will end up right where you started. With its stark contrast to Jeju, route #18-1 is a wonderful trail that should not be missed.

**Shrine of General Choi, Yeong**  On the 23rd year of the reign of King Gongmin during Koryeo Dynasty(1374), General Choi, Yeong, while on his way to Jeju Island to suppress the revolt of Mok Ho, encountered severe winds and waves. He was forced to seek refuge at Chuja-do(island) and wait until the winds calmed down. General Choi, Yeong who was then staying at Jeomsangot, taught the residents how to make fishing nets and catch fish. Their lifestyle improved by far accordingly and they built this shrine to honor General Choi, Yeong’s grace. Within the shrine lies an ancestral tablet that reads ‘National Conversant General Choi, Yeong’ rituals are done every spring and summer to commemorate his contributions.

**Mojini Mongdol Coast**  On Chuja-do, you can find round pebble fields here and there along the coast. It extends as far as 100m from Mojini and people can enjoy sea bathing off its shores.

Route #19
Jocheon – Gimnyeong Olle

Route #19 begins from Jocheon Manse Dongsan(mound) in Jeju-si and extends eastward to Gimnyeong via Shinheung, Hamdeok, Bukchon and Dongbok. It offers some of the most beautiful and exciting scenery in Jeju Island including the sea, mountains, Gotjawal(forest), villages and fields. Hamdeok beach is a popular spot along the way and is lively in summer with locals and travelers alike. Seowoo-bong(peak) is a particularly stunning oreum(small extinct volcano) hugging the coastline just past the beach. As you climb, turn around for an iconic view of Halla-san(mountain). Near the end of your journey, Gimnyeong is a particularly photogenic town with traditional narrow alleys that incite the heart to explore. In the distance, wind turbines provide a picturesque sight as they spin hypnotically with the Jeju wind.

Attractions

Sinheung-ri White Sand Beach/Sinheung Beach  
This is a wide white sand beach in Sinheung-ri Village. The water becomes very clear during high tide and a truly magnificent view appears in low tide. The area is generally flat, which is ideal for all kinds of marine sports & activities; however, the water level can get very deep in high tide, rising above the normal height of an adult.

Hamdeok Seowoo-bong(peak) Beach  
A beautiful beach with fine, white sand that extends out to the sea. Famous for its tranquil and clear water it is also equipped with various facilities, campgrounds and amenities.

Seowoo-bong(peak)  
Located on the edge of Hamdeok Beach, Seou-bong(peak) is considered a mountain of virtues because of its unique appearance that resembles a water buffalo. At the northern peak stands a fire signal tower called Seosanmang, which exchanges signals with Wondangmang in Samyang and Ipsanmang in Gimnyeong. On the eastern shore, there are 21 caves excavated by the Japanese army. In 2003, the residents of Hamdeok-ri built a pathway to Seou-bong for over two years using only sickles and hoes.

Daryeo-do/Dalyeo-do  
This is an uninhabited island off the coast of Bukchon-ri, which is famous for its beautiful sunset. The island is shaped like a seal. The place has rich marine life and diverse species of fish, welcoming fisherman from all around the country. During the 4.3 Incident, some residents of Bukchon-ri hid in Daryeo-do to protect themselves.

Route Map of Jeju Olle
Route #20
Gimnyeong – Hado Olle

Many say Jeju is an island of strong wind, rocks, and women. If you’ve wondered why, route #19 is a perfect showcase of all three. The wind has strongly influence the dialect, stone walls, nature, and culture that are unique to the island. Wind turbines dotted along the rocky volcanic coast gently spin and provide clean energy to residents around the island. Further along, you will come across Woljeong Beach, a hip and relaxed beach town. It’s a great place to take a dip on a hot summer day. Be sure to leave some time for the Haenyo Museum at the trail’s end. These aging women divers area precious symbol of Jeju people’s heritage, hard work, and determination.

Attractions

Gimnyeong Seongsegi Beach  A bright white fine sand beach. The water level is even throughout and the aquamarine ocean is just right for swimming. Those who love kite surfing gather to enjoy the wind. They have a great campsite as well.

Jwaga Yeondae(smoke signal tower)  Yeondae is an old military facility from years ago that functions like a communication post with Bongsoodae(fire signal tower). Most Bongsoodae are on the mountaintop and Yeondae on hill areas, but Jeju built Yeondae at certain points where one could secure a full view of the ocean. There are 38 Yeondae’s in Jeju. They communicate with one another by smoke in the daytime and light in the nighttime. On a cloudy or rainy day, Yeondae keepers would run to the points nearby to deliver emergent news. These buildings are listend as #23-15 Heritage of Jeju Special Self-Governing Province.

Haengwon-pogu(port), Eodeungpo  It is a sojourn monument put up during the banishment of Joseon’s 15th King of Gwanghaegun. He was dethroned after a long conflict around succession and administration of powers. He was first banished to Gwanghwa-do(island), Taean and Eodeungpo in June 6, 1637 – the year of the Manchu War. He was relocated west of Manggyeong-ru of the main castle (the old section of a city). He passed away at the age of 67 after 4 years and 4 months of exile. Gwanghaegun is the most royal individual of all those who were banished to Jeju, but there are no remains of his dwellings.

Haenyeo Museum  A museum of Jeju Haenyeo’s life and culture. There is a reproduction of Badatga-bulteok, the workplace for Jeju’s Haenyeos and the fishing village, and display of Haenyeo apparel and tools(such as Tewak, Mangsari, etc.). You can look around and also listen to commentaries of a cultural tourism interpreter/guide. (Commentary at 10 am, 11 am, 1 pm, 2 pm, 5 pm) There is Haenyeo performance in the lobby every Saturday at 3 pm. There is a separate Haenyeo Experience Zone for children as well. The museum closes on Mondays. Open hours: 9 am to 6 pm. (064-782-9898 / www.haenyeo.go.kr)

Route #21
Hado – Jongdal Olle

Route #21 is the final trail on our Journey. If you have hiked all the courses thus far, then congratulations on a job well done! By now you must have a very strong sense of what our island home is all about. That, all along, has been the goal of those who have worked so hard to create the trails that have captured our hearts, excited the mind, and taken our breath away. We are so close to where we started now so long ago. If you haven’t already, be sure to check out the excellent Haenyeo Museum at the trail head. It is often regarded as one of the best museums on the island and a wonderful showcase of Jeju’s rich heritage. Along this trail, you will also come across familiar rocky coastlines, quaint farmland, the hidden wonders of hado beach, and a stunning panoramic view atop Jimi-bong(peak). In the distance, you can see your starting point at Siheung Elementary School, as well as U-do(island) and the magnificent Sunrise Peak. Take a deep breath and soak in the sights before climbing down for the last leg of the course.

Attractions

Byeolbangjin  A castle built to defend the land from Japanese invaders approaching Udo in 1510(Joongjong’s 5th year of ruling, Joseon Dynasty). There were residences and armories inside the castle and three gates to the East, West and South. It is believed that young men then had to work without Food due to poor harvests. You can see the entire castle now, thanks to the recently completed restoration project. #24 Heritage of Jeju’s Special Self-Governing Province.

Tokki-seom(island), Moonjuran(crinum) Habitat  A small rabbit shaped island and crinum habitat near Hado-ri. Moonjuran or crinum is a sea plant of the south, evergreen herbaceous perennial of Amaryllidaceae. The white flowers first bloom in July and cover the entire island in white by September, making it look even more like a rabbit. You can walk to and from the island at low tide. Tokki-seom(island) is the only Moonjuran habitat in Korea. Moonjuran is #19 Heritage of Jeju’s Special Self-Governing Province.

Jimi-bong(peak)  It is an oreum at the entrance of Jongdal-ri. The way up the oreum is mostly stairways, steep but not long. At the peak, you get a panoramic view of a bird sanctuary, U-do(island), Seongsan Ilchul-bong(peak), the East Sea of Jeju, the fields of Seongsan, Malmi Oreum, Al Oreum and a group of oreums in the East. The name ‘Jimi’ comes from its location, at the tail of Jeju Island. The head is at Dumo-ri Hangyeongmyeon. Altitude: 165.8m.

Hado-ri Beach / Jongdal-ri Beach  Hado-ri and Jongdal-ri have small, clean and lovely beaches. Both beaches have fined sand and outstanding scenery. It is a great place for quiet relaxation and bathing as there aren’t too many visitors.

Discount 10% on drink menu (except Jeju Olle souvenirs)
Olle Grandma's Homestay started when extra rooms were provided by local grandmas who were keeping their homes alone. It is the most appropriate accommodation for learning the culture and traditions of the island. There are 8 Olle Grandma's Homestays in Jeju. They're not able to speak Korean but still it is worth to stay and experience having time with local people. You need to ask someone who can speak Korean around you for the reservation.

How to Participate in Clean Olle Campaign

1. Pick up a Clean Olle plastic bag at a Clean Olle Center at the starting point of each course. There are two types of plastic bags: 20-litre garbage bag and 30-litre recycle bag.
2. Collect the trash from the trail and put it in the Clean Olle plastic bag. The plastic bag is not for your own trash. You must pick up the trash from the trail. Separate the recyclables from garbage.
3. Throw away the full bag at a clean house (designated dumpster) on the trail. Take a picture of yourself – must be smiling! – with the full Clean Olle plastic bag with the clean house to get the Clean Olle stamp and volunteer certificate. If you throw away the full bag at a clean house off the trail, you will be charged penalty. Clean Olle plastic bag is acceptable only on the trail. You may not use the standard trash bag.
4. Show your picture at the nearest Clean Olle Center and get a stamp on your brochure.
5. Collect 6 stamps to receive a Clean Olle souvenir.

How to Receive the Clean Olle Gift

Clean Olle bandana, newly designed to celebrate Clean Olle, is not for sale and can only be obtained by participating in the Clean Olle Campaign. The bandana’s production is sponsored by Neople, the company that makes Jeju’s wonderland more beautiful.

Daily Guided Walks with the Jeju Olle Academy (FREE)

A guided walk is a chance to enjoy a really local day on Jeju at a slow pace with other walkers and a guide who has graduated from Jeju Olle Academy. The walks are about exploring the footpaths, villages, hills, and sites of the island, but also about having a conversation and sharing the day with the walkers next to you. It is a chance to do something that very few international tourists or visitors actually do. Everyone is a volunteer and the walks are free.

How to sign up?

Check out the monthly schedule on Jeju Olle Official English Guide and register by e-mail.
(jejuolletrailguide.net / jejuolle@jejuolle.org)

Free of charge, really?

Yes, all walks are free of charge. However participants will be expected to pay for their own lunch and transport to the start point and after finishing.

What time? How long?

Guided walks start at 9:30am every morning. Officially the guides only have to volunteer for 3 hours in a day. However the guided walks almost always finish the whole route. You can finish halfway of course but we do recommend you finish the day. It can be very difficult to leave the walk in the middle.

I cannot speak Korean, is that ok?

The daily walks are in the Korean language only unless otherwise noted. However, many guides do speak some English. Other walkers are usually always happy to try and speak English with international participants. Isn’t that part of the fun of travel? It will be an extremely memorable experience.

Jeju Island

Jeju is an exquisite island located some 130 kilometers southwest of the Korean peninsula. Noted for its unique properties as a volcanic island, Jeju has World Natural Heritage and Biosphere Reserve designations by UNESCO, and in 2010, was voted the 20th member of the Global Geoparks Network. Jeju is an ideal place to explore and travel as its indigenous culture mixes well with the island’s fine scenery. The island boasts beautiful seas, waterfalls, cliffs, hundreds of oreums (small extinct volcanos), caves and lush forests. Its fields are crisscrossed by snaking stone walls built of black basalts and flowers bloom year-round with stunning colors. Jeju (especially Jeju Olle Trail) has been constantly voted one of the top places to visit in the country via various surveys conducted among Koreans. Traveling in Jeju is very safe and secure. Jeju has for centuries been called “Sammudo” or an “Island of Three-Nothings”. There are no beggars, no thieves, and no gates. A variety of lodging options are on offer, which range from five-star hotels to dormitory-style guesthouses scattered along Jeju Olle Trail. You can also enjoy the naturally harvested crops and fresh seafood throughout the seasons.

The best way to travel Jeju Island is to hike Jeju Olle Trail as it affords any hiker experiences often missed with the speed a vehicle brings. Jeju Olle Trails consists of 21 main routes that loop the island’s coastal region. There are 5 sub routes that take in Jeju’s interior or smaller neighbouring islands. Together the 26 routes stretch some 425 kilometers. Thus Jeju Olle Trails is near the ocean, forest, and fildes. It is a trail through grazing land, quiet villages, and traditional markets. Many of the island’s 368 oreums are visited too. Each route has its own unique charms. By hiking the trail it is possible to appreciate the many views and cultural variety of Jeju Island.
